University Admission Handbook

Sample handbook for LangGraph RAG Task 5

Notice: This is synthetic test content created for learning and demonstration. It does not represent the rules of a real university.

1. MCA Program Eligibility

To be eligible for the Master of Computer Applications (MCA) program, an applicant must hold a bachelor's degree in Computer Science, Information Technology, Computer Applications, or a related discipline from a recognized institution. The applicant must have secured a minimum aggregate of 60 percent in the qualifying degree.

Applicants in the final semester of a qualifying bachelor's program may apply provisionally. Final admission is confirmed only after submission of the final marksheet and degree or provisional certificate before the document-verification deadline.

2. Application Schedule

Activity	Illustrative Date
Online application opens	1 March 2027
Application deadline	30 April 2027
Entrance assessment	18 May 2027
First merit list	5 June 2027
Document verification	10-20 June 2027
Program commencement	15 July 2027

Applications submitted after the stated deadline are not considered unless the university publishes an official extension notice.

3. Required Documents

• Completed online application form.

• Recent passport-size photograph.

• Government-issued identity document.

• Class 10 and Class 12 marksheets.

• All semester or year-wise bachelor's degree marksheets.

• Degree certificate or provisional degree certificate.

• Entrance-test scorecard, when applicable.

• Category or reservation certificate, when applicable.

• Migration and transfer certificates at the time of final admission.

4. Scholarships and Financial Assistance

Merit scholarships are available for applicants who achieve at least 85 percent in the qualifying degree. The standard merit scholarship provides a 25 percent tuition-fee waiver for the first academic year, subject to document verification and seat availability.

Need-based financial assistance may be considered for applicants whose verified annual household income is below INR 4,00,000. Applicants must submit an income certificate issued by a competent authority. Scholarship awards are not automatic and depend on verification, available funds, and the published scholarship policy.

A student may receive only one institutional tuition-fee scholarship at a time. Renewal for a subsequent year requires a minimum CGPA of 7.5 and no pending disciplinary action.

5. Selection Process

Selection is based on eligibility screening, entrance-assessment performance where applicable, academic record, and document verification. Meeting the minimum eligibility criteria permits an application to be considered but does not guarantee admission.

Shortlisted applicants receive instructions through the registered email address. Applicants must complete fee payment within the period stated in the admission offer. Failure to pay within that period may result in cancellation of the offer.

6. Frequently Asked Questions

What is the eligibility for MCA?

A relevant bachelor’s degree and a minimum 60 percent aggregate are required.

What is the application deadline?

The illustrative application deadline in this sample handbook is 30 April 2027.

Is a scholarship available?

Merit and need-based assistance are described in the scholarship section; all awards are subject to verification and availability.

Can final-semester students apply?

Yes, provisionally, with final documents required before the verification deadline.

Does meeting eligibility guarantee admission?

No. Eligibility permits consideration, while selection also depends on the remaining published criteria.

7. Contact and Escalation

Applicants should use the official admissions portal for application-status queries and document-upload issues. This sample does not provide real contact details. For a production system, the response should direct applicants only to verified university channels.
